

LINE LIGHT 6

6 LED lighting units for truck lifts and pits

Double lumen output

LINE LIGHT 6 is for universal application on lifts for trucks and other heavy vehicles providing you with bright illumination exactly where you need it.

With 6 complete lighting units, LINE LIGHT 6 illuminates the entire undercarriage. Compared to the previous version, **LINE LIGHT 6 has been upgraded from 1400 to 2750 lumen.**

It concentrates the light in a 75° beam angle which means that the lamp can be turned to provide the optimum lighting angle without blinding the mechanic. Compared to traditional 36W fluorescent tubes, LINE LIGHT 6 provides extremely bright illumination with low power consumption.

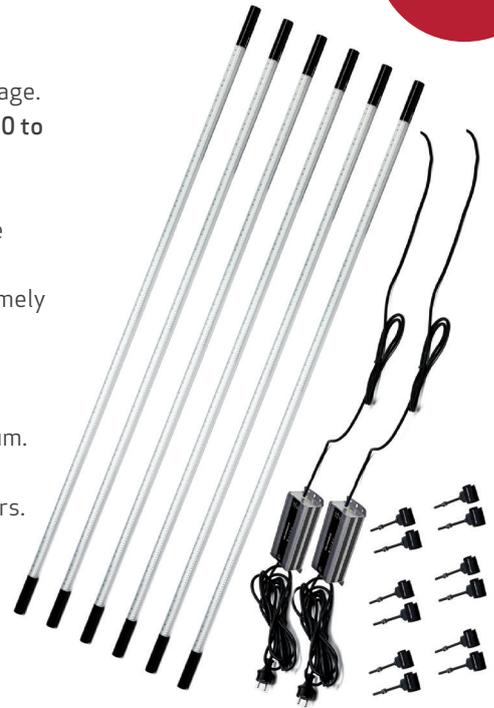

LINE LIGHT is constructed by a closed extruded acrylic profile (PMMA) with built-in prism containing a LED PCB and end-covers in black anodized aluminium. It is extremely sturdy, shock- and waterproof (IP67) to resist wet and dirty workshop environment. The technical lifetime of LEDs is at least 100,000 hours.

LINE LIGHT 6 consists of 6 lighting units 1630mm incl 2 pcs 80W power supply units, 2x8 m cable and complete suspension fittings.

As LINE LIGHT is a low voltage (24V DC) system, you can easily do the installation yourself. All basic fittings are supplied with each kit together with power supplies and cable.

Available as accessory, the LINE LIGHT DIMMER lets you adjust the light intensity seamlessly.

- “Unbreakable”- extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Low voltage 24V DC
- Technical lifetime of LEDs 100.000 hours
- Made in Denmark
