UNIQUE LIGHTING SOLUTIONS  
FOR THE AUTOMOTIVE WORKSHOP

// The “ORIGINAL SCANGRIP” symbol is your guarantee that the product is designed and developed by SCANGRIP

### High quality

SCANGRIP products are known for high quality with a price-to-quality ratio considered to be the best on the market. We have comprehensive quality check procedures, and we are ISO 9001 certified.

### Unique design

SCANGRIP receives strong recognition in the marketplace for unique product design. We are inspired by the concept of modern design and gather ideas from other industries to create new products that have not been seen before.

### Europe’s leading supplier

SCANGRIP provides the strongest and most comprehensive range of durable and functional LED work lights and is Europe’s leading and trendsetting supplier of work lighting solutions for professionals. SCANGRIP is first-mover and is always two steps ahead when it comes to developing new and innovative LED work lights.

# Specialised LED work light solutions for the automotive workshop

- Powerful, efficient, and concentrated work light
- Extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Technical lifetime of LEDs 100,000 hours

## // Bright illumination exactly where you need it

By means of a built-in prism, LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

## // Innovative LED technology

The LINE LIGHT series is based on the newest state-of-the-art LED technology. LINE LIGHT provides almost double illumination compared to the traditional 36W fluorescent tubes. The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

## // Extreme durability

LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations. LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment and is resistant to both oil and chemicals. The high IP classification means that it is resistant to both dust and water. LINE LIGHT is completely maintenance free.

## // Reduced power consumption

Compared to traditional fluorescent tube lighting LINE LIGHT only consumes half the amount of electricity which presents serious cost savings on electricity.

# *SUPERIOR underhood light*

ORIGINAL  
SCANGRIP

SINCE 1906

MADE IN DENMARK

- Up to 1,400 lumen light output
- Dust and waterproof, IP65
- Most slim and compact underhood light on the market
- Extremely low weight, only 2.2 lbs
- Choose between 2 light settings (50% or 100%) for maximized operating time

## **DUAL 2 in 1 SYSTEM**

DUAL SYSTEM is an intelligent and innovative lighting functionality. SCANGRIP work lights provided with DUAL SYSTEM are both rechargeable and equipped with 16ft cable offering unlimited application possibilities. Very easily you change over: it takes only a second to connect the power cable - or disconnect when needed.

## // Illuminates the entire engine bay

The BONNET LIGHT provides you with an extremely bright and powerful illumination of the entire engine bay.

Supplied with an adjustable telescopic holder with soft-padded hook ends providing a firm and scratch-free grip on the vehicle. The holder is compact and takes up less space in storage.

Without cable the bonnet light might also to be used as a large inspection lamp.
